Building Innovation Opportunities

Bio-Techne represents the unification of the prestigious biomedical research brands of R&D Systems, Tocris Bioscience, Novus Biologicals, and ProteinSimple. **Bio-Techne was built on a reputation of quality.** Quality is not only about producing a consistent, reliable, and highly active product, it is about a mindset that **puts the needs of the scientific research community first.** That is why we've brought together these complementary brands and that is how we continue to exceed the product quality and **customer service needs that our customers expect.**

Complementary brands to provide
the best solutions to researchers.
